

OPERATIONAL SERVICES

CAPABILITY STATEMENT

LOCAL SERVICE, GLOBAL EXPERIENCE

Overview

IOLAR is a specialist waste management and resource recovery company delivering operational solutions for both private and local government sectors.

Landfill, transfer station and resource facility operations and management

- Gatehouse operations
- Resource recovery
- Landfill compaction and operation
- Materials stockpiling and loading
- Operations management
- Resource and waste transport
- Waste bin compaction
- Site maintenance
- Contractor liaison and co-operation

Sustainable outcomes

- Delivering cost-effective waste services, infrastructure and equipment
- Reducing waste to landfill
- Increasing the amount of material recovered for recycling, reprocessing and reuse
- Creating local employment
- Partnering with local businesses and charities to maximise community benefit in resource recovery and recycling for above activities

Goals

Customer service

- To provide all customers with a high level of service that strives for continuous improvement in all areas.

Staff retention

- To provide a safe and enjoyable workplace so that all employees feel happy to come to work each day.

Efficiency

- To innovate and improve efficiency in the way we do things to benefit IOS, its employees and its clients.

Growth

- To grow the business in a sustainable and manageable way without impacting those around us.

Environment

- To minimise to the greatest extent the impact of providing services to clients.

Specialist support for small, rural and remote operations

Iolar provides cost-effective waste and resource recovery solutions for regional, rural and remote communities. We can provide practical, innovative and sustainable solutions that meet budgetary constraints, deliver environmental outcomes, reduce waste to landfill and support the local community.

Practical, sustainable and innovative waste management and resource recovery solutions

Plant and equipment

Iolar has a range of backhoe's, excavators, loaders and trucks to support operational contracts.

Iolar assesses site and contract requirements and provides the most suitable plant and equipment of each site and operation.

Quality and workplace health and safety assurance

Iolar has a workplace health and safety system that has been developed in accordance with the Australian Standard AS 4801. Iolar also develops quality and workplace health and safety management plans specific to individual operational contracts and sites. We document procedures and processes to ensure safety of our employees, sub-contractors, customers and other stakeholders.

Recycle Markets

Iolar operates a number of recycle markets, also affectionately known as "tipshops" as part of Council contracts where items are salvaged from landfill waste stream and resold. Iolar works with Councils to reduce the quantity of waste going to landfill with Iolar providing revenue sharing for both parties and contributions to local community groups and charities.

Resource Recovery

Iolar can manage the recovery, collection and transport of resources such as paper, cardboard and scrap metals.
